Finca with beautiful views to the mountains in quiet area

Ibiza Country Villas presents :

Authentic finca in Sant Vicent, 2.5 km from the quiet and beautiful Cala Sant Vicent.

INTERIOR

This property of more than 150 years old is distributed on several levels (typical of Ibizan farmhouses), although here is almost everything on the same level (saving one or two steps) except for two of the bedrooms (one of them with its own bathroom).

We enter directly into the spacious living room with double-height ceilings, skylight and a fireplace. From here, we can exit to one of the sides of the finca or access a large room -that was used as a kitchen with dining area- which also exits to the outside and that could be used as a bedroom or in any other desired way.

Another of the doors that opens from the living room goes into the smaller bedroom (although a double bed would fit here) and, by means of stairs, you can also access the master bedroom with an en-suite bathroom and a balcony with beautiful views open to the countryside.
