Exceptional property with views of Es Vedrà

We promised our photographer, who knows the best houses in Ibiza, the best views of Es Vedrá... And we delivered. As soon as he stepped inside, he couldn't help but agree: we are looking at the best views of Es Vedrá. This property is a cozy, green, and private home. The main house is situated directly facing the iconic rock of Es Vedrá. You can cook, watch television, or simply enjoy a good glass of wine, all while taking in stunning views. The main house opens directly onto the pool area, the heart of the property. This space connects the outdoor pool, the dining area, a terrace for enjoying sunset cocktails, a guest house, and two additional 1-bedroom apartments at the rear of the property, all with spectacular views.

On a plot of almost 4,000 m², the property features 5 bedrooms and 5 bathrooms distributed between the main house with 2 bedrooms, and 2 independent apartments, each with 1 bedroom and a living room/kitchen. The property is full of carefully considered details, such as clinker flooring inside that adds warmth, integrated PITT gas burners for a modern touch, and a terraced garden that gives the feeling of a small private village. At the center of it all is a large outdoor dining table, a place to gather, share good stories, have breakfast, or enjoy a magnificent barbecue.
