Impressive new construction villa in Can Furnet

Nestled in an environment of absolute serenity, surrounded by green fields and lush Mediterranean vegetation - pines, oaks, almond, olive, fig and carob trees - this development was born as an exclusive residential project that redefines the concept of quality of life in Ibiza.

Situated in a privileged location, between the vibrant town of Eivissa and the charming beach of Cala Llonga, and just 10 minutes from the airport, this enclave offers the perfect balance between accessibility, privacy and natural beauty.

Each of the homes has been designed with a unique and elegant architecture, respecting the essence of the Ibizan landscape. The indigenous trees and plants are not only preserved, but integrated into the private gardens of each villa, creating a harmonious dialogue between the built and the natural.

Excellence in construction, together with a careful selection of premium services and first class personalised attention, make this development an unparalleled residential experience. Here, every detail has been conceived to offer maximum comfort, in an environment where luxury is lived naturally.

From opening the windows in the morning and breathing in the fresh mountain air, to enjoying the calm and security offered by an exclusive community, this development invites you to discover a new dimension of well-being. A place where privacy and discretion are not promises, but guarantees.
